

If My Words Had the Power
Shamah ShaRize

If my words had the power
My fallen comrades would be standing here
Right now, at this hour

Malcolm
Marley
Frederick
Nutun
We shall overcome

If my words had the power

I would make sense to the senseless
Turn down the tension in war
Increase compassion
Until people no longer want to fight
If my words had the power
People would no longer want to fight
Embrace my enemy until he's a friend to me
So people no longer want to fight
Open the minds of adults
Tell them to reconnect with their childhood
Save the babies
Not just my babies
But, your babies
& your babies
Let's save all babies
Babies are little people
Let's save all people

I dare people
To dare people
To make this conversation a sequel
Lay down your biasedness
See how much we are equal

If my words had the power
My daughter's singing voice
Would plug the barrels of pistols
No more senseless violence
Those bullets won't hit you

If my words had the power
I would dare u to be the rare u
Raise ur voices
To make the right choices

And I dare u
Just pause for a moment
Think about the moment
U didn't take a moment
Actions without thought

I dare u to be different
I dare u to care
People will judge u
Ignore all the stares

I dare u to search
I dare u to grow
To learn new things
Forget what u know

I dare u to love
Use ur strength & climb
Appreciate the beauty that's hidden in the mind

I dare my sons
To outshine the sun
I dare my wife
To stay the prettiest face in my life
I dare my family, continue to support
Those who support
The ending of illegal incarceration

Illegal drugs
Global warming / people dying
Starvation
Hateful speech
Those who support
Education
Housing for all
Food for all
Medical care for all
I dare my family to continue to support
Those who support
A cure for cancer
Cure for diabetes
Cure for Parkinson's
Cure for Alzheimer's
Cure for HIV
Cure for STDs
Mental Illness
Paralysis
I dare u to go forward
Give your ambitions your all
